

Hello, I am Dale Garraway, Professor of Mathematics and current UFE Secretary. I arrived at EWU in 2003 and joined the union at the new faculty get together on the evening of my first day. I joined the e-board as UFE secretary a couple of years later and have been a member of the e-board ever since. Since then I have run all elections and served on several committees associated with union duties. For the university I have served on several committees including most recently the Gen-Ed committee and CPAC. I am running again for secretary because I believe strongly in the role that UFE has at Eastern. It is important to protect the rights of faculty in light of the continuing pressure we face.
